Project Engineer: Jay Matthews
Field Superintendent: Carl Wigham

Gwinnett County Detention Center

Lawrenceville, Georgia

Norment furnished and installed security hollow metal, security pneumatic hardware, security mesh, security glass, security accessories and security electronics for this addition to an existing facility.

The new wing will give the center an additional 684 general housing cells, 72 maximum security cells and 15 patient rooms. Norment furnished and installed pneumatic locks and locking devices and hardware manufactured by AirTeq, along with integrated electronic security controls and systems from Trentech. The electronics include touchscreen control panels, CCTV, access control software/hardware and a FiberSensys perimeter detection system. Trentech will also upgrade the control room in the existing facility in order to bring both buildings into the same security system.

In addition to pneumatic hardware and security electronics, Norment furnished and installed security hollow metal, security mesh, security glass and detention furnishings.
