Kankakee County Detention Facility Phase II Addition

Kankakee, Illinois

Located on a 20-acre site adjacent to the county airport, 100,000 GSF Kankakee County Jail is a full-service jail, which confines both pre-trial and sentenced inmates.

This detention facility was designed as a direct supervision, campus-style building containing single-level construction for most building components, except inmate housing which is two stories and includes a mezzanine. The facility was master planned with the capacity to add 800 beds. Phase II was comprised of a 14,000 SF addition that included 74 Maxwall Modular Cells and 126 inmate beds.

Norment's work included the erection of 74 Maxwall Modular Cells, including concrete, metal deck and security caulking; installation of cell furniture, cell door glass, some security hardware, and food passes.
